

Disclaimer:

While participating in the CODE-challenge I worked solely on the desktop version of my website. Making it responsive for mobile devices as well will be one of the next steps in the development process but 3 weeks time are too little to achieve this.

All of the elements and pages that are described here can also be seen in action in the screen-capture video.

All of the elements and pages that have changed will have a red exclamation point at the left of their heading.

User-End

After three weeks of work, the website consists of a finished responsive desktop-user-end with a starting page, an about us-page, an events-page, a newsletter subscription-page and a contact formula-page. There also is a calendar-page which is only accessible from the events-page. A legal notice page shall be accessible from a link in the footer in the future.

General elements that every page of the user-end possesses

These are elements that are found on every page of the user-end which never (except for highlighting the page that the user is on at the moment) change.

! The navigation-bar

The navigation-bar is located at the top of each page and consists of horizontally arranged links to all main pages of the website including “Startseite” (start page), “Über Uns” (about us), “Veranstaltungen” (events), “Newsletter” and “Kontakt” (contact). The links are arranged from left to right in the given order with the only exception being a logo of the student-representation which is aligned between “Über Uns” and “Veranstaltungen”. The active page’s name is highlighted in orange.
The orange stripe now contains a notification if a new GSV date has been set in the admin panel

WHAT HAS BEEN DONE

1. The search button on the right of the navigation bar is new. If hovered, a small search input will appear left of it in which the user can input a keyword that is then searched for in all public posts. The results will appear on a modified events page that you can see further down the inventory.
2. The orange stripe now contains a notification if a new GSV date has been set in the admin panel (more on that further down)

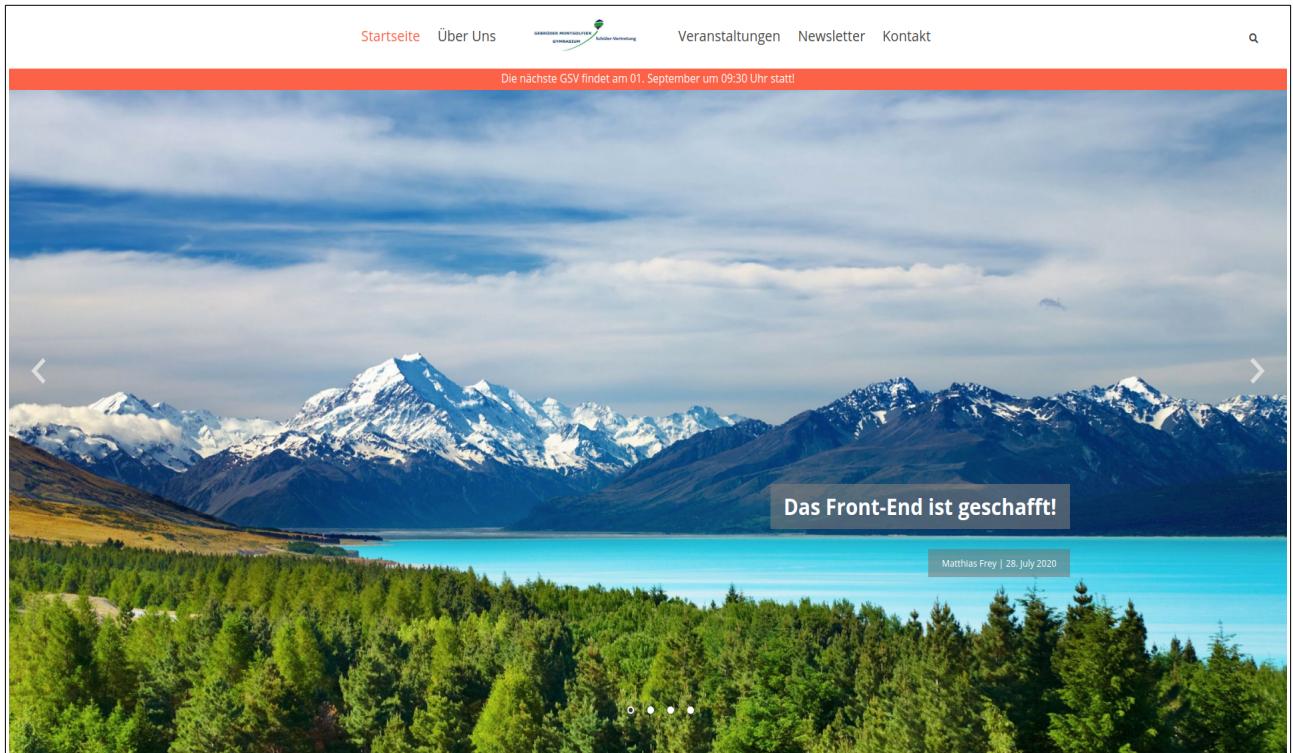

The footer

The footer is located at the bottom of the page and consists of three horizontally aligned elements. The left element is a link to the legal notice of the page. It is currently still inactive though. The middle element is a copyright information and the right element is a button to get back to the top of the page.

Content between navigation-bar and footer listed by page

! The start page

Freiheit, Freude und Demokratie

Das Neueste

Das Front-End ist geschafft!

Nach knapp einer Woche harter Arbeit ist das Front-End nun fertig.

Test für die Zusatzinfos

Milford Sound, Neuseeland

New design coming soon!

From this moment on, I will be working on the new admin panel for the GSV!

Die Reise

Der Wanaka-Tree, Neuseeland

Matthias Frey | 28. July 2020

« 1 2 3 »

Between navbar and footer, on the start page there are an image-slider showing and linking the most important news, a banner that represents the slogan of the elected representatives and a feed with links to all the news and articles that have been uploaded to the page.

The image-slider shows the front-image of the latest as “important” marked articles as well as their title, author and publishing date. The user is able to scroll through the images manually by clicking the control arrows on the left and right side of the image. The slider scrolls automatically as well though.

The news feed at the bottom of the page links four published articles at a time, sorted by their publishing time. Everyone of the four article links consists of its front-image at the top, its title below it, its teaser/description below that and lastly the its author and publishing date at the bottom. If one of the four shown links is hovered, it will rescale its size by a factor of 1.1 .

Under the four links, there is a basic pagination that lets the user scroll through the feed chronologically.

WHAT HAS BEEN DONE

1. The navigation function of the indication dots of the image slider is now working properly.
2. It is now no longer possible to scroll further than wanted in the pagination. The outwards-directed scrolling buttons will be disabled on the first and last page.
3. When scrolling through the pagination, the user is now redirected down to the news feed again.
4. The links, if hovered will now resize by a factor of 1.1. for a nice visual effect.
5. Post descriptions and their authors are now shown in the news feed links.

The about us page

The screenshot shows the 'About Us' page of a website. At the top is a navigation bar with links: Startseite, Über Uns, Veranaltungen, Newsletter, and Kontakt. Below the navigation bar is a horizontal red bar. The main content area features a photograph of five small, colorful wooden figurines (representing students) standing in a row. Below the image is the subtitle 'Das GSV-Team'. To the right of the image is a yellow-highlighted box containing the heading 'Wer sind Wir?' and a large amount of placeholder text (Lorem ipsum). Below this box is the heading 'Unsere Schulsprecher'. Three representative profiles are displayed, each consisting of a photo, a name ('Lorem Ipsum'), and several sections of placeholder text under headings like Klasse, Hobbies, Ziel/e:, Projekte, and Motivation.

Impressum Copyright © Innovative Programming JTOWN

Between navbar and footer, on the about us page there are an image of the student-representation (at the moment of the inventory only represented by another image), a subtitle that explains the image, a highlighted box with a text inside in which the representatives and the whole representation can present themselves and an overview of the currently voted main-representatives.

The overview of the representatives consists of 3 containers that for each representative include his name, a picture of him and some personal information.

Between navbar and footer, the events page contains, three navigation-buttons on the left side and a feed with articles that are sorted into “Zukünftiges” (upcoming events) and “Vergangenes/Vergangene Veranstaltungen” (past events). Above the footer there is also a basic pagination that is used to “scroll” through the different pages of the feed

Each element of the feed contains its front-image, its title, author and publishing date. When hovering over the image in the bottom-left quadrant of the image, the post teaser/description below the image and a link to the full article which redirects the user to the article in its reading-view below that.

WHAT HAS BEEN DONE

1. The possibility to scroll to empty pages via the pagination no longer exists anymore (similar to the start page)
2. The position of the navigation buttons on the left has been optimized.
3. The search bar has been moved into the right of every top navigation bar (more details in the top navigation bar entry)
4. The post descriptions and their authors are now shown and the overall design of the links has been improved. It is now similar to the article links of the image slider of the start page.

! The calendar page

The screenshot shows a website layout for the German Society of Visual Impairment (GSV). At the top, there is a navigation bar with links for 'Startseite', 'Über Uns', the GSV logo, 'Veranstaltungen', 'Newsletter', and 'Kontakt'. A search icon is also present. Below the navigation bar is a red horizontal banner.

In the center, there is a heading 'Unser Kalender!' followed by explanatory text: 'Auf dieser Seite könnt ihr alle Termine der GSV und (wenn wir es schaffen) auch alle anderen möglichen Termine für Schülervertreter nachschlagen.' Below this, there is a note: 'Wenn ihr einen Termin findet, den wir hier noch nicht eingetragen haben, gebt ihn uns doch bitte einfach über die Kontakt-Seite durch. Vielen Dank!'.

The main feature is a calendar for July 2020. The days of the week are labeled 'Mo', 'Di', 'Mi', 'Do', 'Fr', 'Sa', and 'So'. The dates from 1 to 31 are listed. The days from 27 to 31 are highlighted in yellow, indicating current appointments or meetings. Navigation arrows for the month are at the top left, and buttons for 'Monat', 'Woche', and 'Terminübersicht' are at the top right. The footer contains links for 'Impressum' and 'Copyright © Innovative Programming JTOWN', along with a small circular icon.

Between navbar and footer, the calendar page contains a page explanation text and a navigable calendar which can show current appointments and meetings of the GSV if they are put into the corresponding google calendar.

WHAT HAS BEEN DONE

1. The colors of the calendar controls have been set to grey.
2. A heading and a page explanation have been included above the calendar.

! The reading page of the posts

Was für eine cooler Post!
Ist das Hipsum.co-Text?

Matthias Frey - 27. July 2020
Geiles Bild!

Letzte Berichte

The reading page consists of two containers, one containing the article with its image, heading and additional information and one on the right handside of it containing vertically arranged links to the latest posted articles. Below the article in its container, there is also a comment section and a form with which the user can post comments himself. For this, he needs to enter his name, his email address and his message.

The article-container consists of the articles title and its publishing date on the right of it, its front-image below, the articles teaser/description in bold below the image, the article itself and its author below the article on the right.

WHAT HAS BEEN DONE

1. The design of the comment section has been improved
2. The scroll-up arrow is now visible.
3. The articles container has been redesigned to now feature the posts description and its author as well.
4. The news feed on the right has also been redesigned.
Its links are now similarly designed as the links of the events page.
If they are hovered, they will resize by a scale of 1.1 for a nice visual effect.
5. A success-message will show up at the top of the page if a comment has been submitted.

! The newsletter page

The screenshot shows the GSV newsletter page. At the top, there is a navigation bar with links for Startseite, Über Uns, Veranstaltungen, Newsletter (which is highlighted in red), and Kontakt. Below the navigation is a red banner with the text "Die nächste GSV findet am 01. September um 09:30 Uhr statt!". A green success message box displays "Deine Anmeldung war erfolgreich!". The main content area features a section titled "Unser Newsletter!" with explanatory text: "Du möchtest mehr über die GSV und unsere Arbeit erfahren? Dann abonnier hier unseren Newsletter und erhalte regelmäßig Informationen zu unserer neuesten Beschlüssen, Projekten und vielem mehr!". Below this text is a form with an envelope icon and the placeholder "Deine Email...", and a red "Abonnieren" button. At the bottom of the page, there is a dark footer bar with links for Impressum, Copyright © Innovative Programming JTown, and a small upward arrow icon.

The newsletter page contains a simple input field where the user can put in his email address to subscribe to the newsletter of the gsv, with explanatory information above it.

WHAT HAS BEEN DONE

1. A function was implemented that checks whether the email that was entered is already subscribed to the newsletter. If it is not already subscribed, it will be added into the db, a pop-up message will tell the user that he has successfully been added (shown) and a confirmation email will be sent to him. If his email is already subscribed, an error message will pop up that say this.

A screenshot of the Mailspring application interface. At the top, there's a dark header bar with "Aktivitäten" and "Mailspring ▾" on the left, and the date "29. Jul 00:02" on the right. Below this is a secondary header bar with "Newsletter-Anmeldung erfolgreich!" in bold. The main content area shows a single email message from "gsvtestpage" to "An: matthias.frey12487". The message body says: "Du bist nun für den GSV-Newsletter angemeldet. Wir freuen uns sehr über dein Interesse!". Below the message, there's a text input field with the placeholder "Eine Antwort schreiben...". At the bottom of the message preview, there's a small "confirmation mail" link.

! The contact page

A screenshot of the GSV contact page. At the top, there's a navigation bar with links for "Startseite", "Über Uns", "Veranstaltungen", "Newsletter", and "Kontakt". Below the navigation is a red horizontal bar. In the center, there's a green rounded rectangle containing the text "Wir haben deine Nachricht erhalten, vielen Dank!". Below this, there's a section titled "Senden uns auch Deine Ideen!" with a sub-section about sending ideas. There are three input fields: "Dein Name...", "Deine Email Adresse...", and "Deine Nachricht (max 250 Zeichen)...". Below these is a large text area for the message, and at the bottom of the area is a red "Senden" button. At the very bottom of the page, there's a dark footer bar with "Impressum" on the left and "Copyright © Innovative Programming JTOWN" on the right, along with a small circular logo.

The contact page contains another simple form with which the user can directly contact the representatives. It will send a message to the representatives inbox which is located in the admin panel of the website (more on that further down).

Above the form, there is explanatory information about the form as well as an encouraging statement to the user.

If a contact message has been submitted successfully, a success message will pop stating so (shown in the picture).

WHAT HAS BEEN DONE

1. A function has been developed that inserts the received contact message, its submission date and its author, together with his email into the responsible db.
2. A success message will pop up if a message was successfully submitted.

The admin panel

The admin panel is the place where the representatives shall be able to manage the content of the website, that means comments, posts, received contact-messages, the about us page and so on. To this moment its main functions are working but the design is still poor and a long way from being finished. Some of the wanted functions are also still missing but overall it is mostly functional already.

General elements that every page of the admin panel shall contain in the future

! The top navigation bar

The screenshot shows a web application interface. At the top is a red navigation bar with links for 'Startseite', 'Über Uns', 'Veranstaltungen', 'Newsletter', and 'Kontakt'. In the top-right corner is a circular profile icon. A sidebar on the left contains links: 'Dashboard' (highlighted in red), 'Alle Artikel', 'Entwürfe', 'Neuer Artikel', 'Post-Kategorien', 'Kontakt-Inbox', 'Admin-Verwaltung', 'GSV ankündigen', 'Kommentare' (with a yellow badge showing '1'), 'Kalender', and 'Abmelden'. A small grey box with a question mark icon is positioned above the sidebar. On the right, a white box contains a dropdown menu with 'Mein Profil', 'Einstellungen', and 'Abmelden'. Below this are two buttons: 'Löschen' and 'Details'.

Via the top navigation bar, the user can currently navigate to all of the pages of the user-end and is able to open a pop-up menu by clicking his round icon in the top-right corner. In this pop-up menu he finds a link through which, in the future, he shall be able to change his profile information, change some general settings and to log out of the dashboard.

WHAT HAS BEEN DONE

1. Links to all of the main pages of the user-end have been added.
2. The drop-down has been designed properly.

! The left navigation bar

The left navigation contains vertically arranged links to all pages of the admin panel.

These are (in this order):

dashboard page, all posts page, drafts page, new post-page,
manage categories-page, contact inbox-page, manage admins-page
new GSV-page, manage comments-page.

There is also a link to the calendar page of the user-end and a link to log out of the admin-panel.

WHAT HAS BEEN DONE

1. The left navigation bar has been redesigned and the links have been updated.
2. The unapproved comments count on the left has also been redesigned.

! The login-page

The screenshot shows a simple login form. At the top, the word "Login" is centered. Below it are two input fields: the first is labeled "Username" and the second is labeled "Password". Both fields are empty. At the bottom of the form is a single button labeled "Weiter". The entire form is contained within a light gray rectangular border.

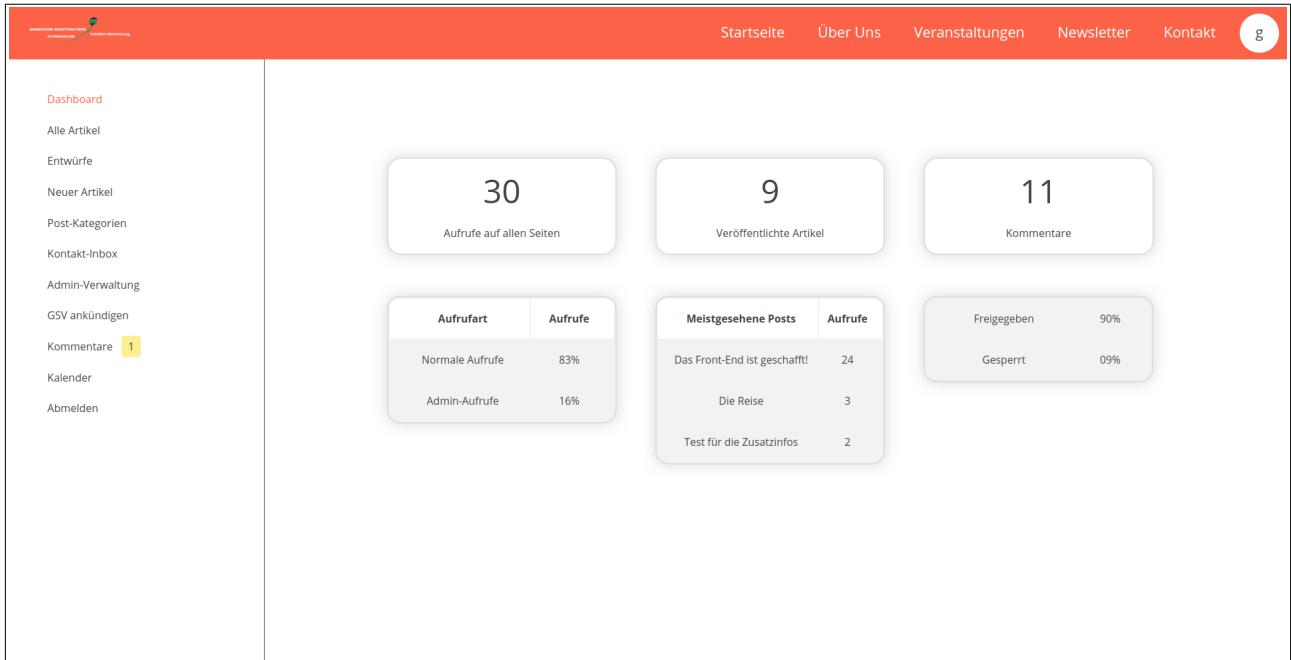

The login-page is where a user is redirected to if he wants to access the admin-panel but is not logged in yet. It is also the page, that an admin is redirected to if he logs out.

It consists solely of a form in which a user can enter a username and a password and then submit the two. If the entered username and password are correct, the then logged in admin will be redirected to the dashboard-page where a short success message will welcome him. If the login fails a short error message will appear above the form.

WHAT HAS BEEN DONE:

1. The login page has been redesigned only marginally.

!! The dashboard / start page

The dashboard page is the completely new start page of the admin-panel.

The admin gets redirected to it after logging in and is then shown a basic welcome message.

It contains 6 containers off of which the three horizontally aligned one's at the top each show one interesting number about the page. They are the amount of visitors, the amount of published posts, and the amount of received comments. Below the numbers, they are also shortly explained.

In the three horizontally arranged containers below them, three tables are shown which display the percentages of normal views and admin views (left), of approved and unapproved comments on the page (right) and the three most viewed posts together with their view count (center).

WHAT HAS BEEN DONE:

1. A whole new dashboard page has been created and functions that fetch interesting stats about the page like the amount of views on all pages have been implemented.

Inventory of the website after the challenge

28.07.2020

! The all posts and drafts page

6	H	28. July 2020	Matthias Frey	Veransta..		Bearbeiten	Löschen	Vorschau
7	Robert Langdon	28. July 2020	johannselbst	Ankündi..		Bearbeiten	Löschen	Vorschau
8	wow	28. July 2020	johannselbst	Ankündi..		Bearbeiten	Löschen	Vorschau
9	first article	28. July 2020	Matthias Frey	Veransta..	1	Bearbeiten	Löschen	Vorschau

The all posts page contains a table which lists all of the posts that are currently visible on the user-end.

In the table one can find data about the posts like their title, their publishing date, their author, which post category their part of and how many approved and unapproved comments they have.

The admin can also click links to edit or delete the posts and preview them. The edit-link redirects the user to a fitting form and the preview button leads the user to the preview view of the respective article. The delete link leads the user to another form in which the posts content is shown again and the post can be deleted.

Nr.	Titel	Datum	Author	Kategorie	Kommentar-Anzahl	Bearbeiten	Löschen	Details
1	Das Front-End ist ge...	28. July 2020	Matthias Frey	Ankündi..	1	Bearbeiten	Löschen	Vorschau

The drafts page is the same page, now only fetching data about all posts that have been saved as drafts.

WHAT HAS BEEN DONE

1. The design of the table and its links have been updated.
2. The footer has been removed
3. The comment counters have been redesigned.

! The create and delete post page

The screenshot shows the 'Create Post' page of a website. The header features the school's logo and navigation links: Startseite, Über Uns, Veranstaltungen, Newsletter, Kontakt, and a user icon. The left sidebar contains links for Dashboard, Alle Artikel, Entwürfe, Neuer Artikel (highlighted in red), Post-Kategorien, Kontakt-Inbox, Admin-Verwaltung, GSV ankündigen, Kommentare (with a yellow notification badge), Kalender, and Abmelden. The main content area is titled 'Titel' and shows the date '28. July 2020'. A large text input field contains the school's name: 'GEBRÜDER MONTGOLFIER GYMNASIUM' above 'Schüler-Vertretung', with a small green rocket icon next to it. Below this is a '(Standard)' link. A 'Banner:' field with a 'Datei auswählen' button and a note 'Keine ausgewählt' is present. Two 'TINY' rich-text editors follow: one for 'Post-Teaser/Beschreibung...' and another for 'Post-Inhalt...'. Both editors have 'Edit', 'View', 'Insert', and 'Format' tabs, and 'Open Sans' font selected at 12pt. The bottom of the page includes a 'Zusätzliche Postinformationen:' section with 'Kategorie:' dropdown set to 'Projektbericht', a checkbox for 'Soll der Artikel teil des Bild-Sliders auf der Startseite sein? (checkbox)', and buttons for 'Posten', 'Vorschau', 'Als Entwurf speichern', and 'Löschen'.

^ new post mode

The create post page is the place where new posts shall be created and already existing posts and draft shall be edited. It is also the home of the delete post page but more on that further down.

The page consist of a form which does its best to follow the design of the reading view of the articles.

It consist of a title and the current date right of it, the posts image below that, the image selector, a tinyMCE rich text editor below that for the post description, another tinyMCE rich text editor below that for the post itself, an input field on the right below that where the posts author can be entered, a category chooser and a checkbox with which the admin is able to choose whether the given post shall be shown in the image-slider on the start page.

Below this form, there are four submit buttons in creation mode, with which the admin can submit the post to the user-end, display a preview of the post, save it as a draft and delete it.

The screenshot shows a web-based post creation interface. At the top, a navigation bar includes links for Startseite, Über Uns, Veranstaltungen, Newsletter, Kontakt, and a user icon. On the left, a sidebar lists site navigation: Dashboard, Alle Artikel, Entwürfe, Neuer Artikel (highlighted in red), Post-Kategorien, Kontakt-Inbox, Admin-Verwaltung, GSV ankündigen, Kommentare (with a yellow notification badge showing '1'), Kalender, and Abmelden. The main content area displays a post titled "Test für die Zusatzinfos" from July 29, 2020. The post features a large image of Milford Sound, New Zealand, with mountains reflected in the water. Below the image is a text editor for the post's description, containing the text "Milford Sound, Neuseeland". Another text editor below it contains placeholder text from theloremipsum.com. A third text editor at the bottom is currently empty. At the bottom of the post area, there is a section for additional post information, including dropdown menus for Category ("Veranstaltungsbericht") and a checkbox for "Soll der Artikel teil des Bild-Sliders auf der Startseite sein?". At the very bottom, there are four buttons: Speichern/Posten, Vorschau, Als Entwurf speichern, and Löschen.

^ editing mode

Inventory of the website after the challenge

28.07.2020

The screenshot shows a web-based administration interface for a website. On the left is a sidebar with various menu items: Dashboard, Alle Artikel, Entwürfe, Neuer Artikel (highlighted in red), Post-Kategorien, Kontakt-Inbox, Admin-Verwaltung, GSV ankündigen, Kommentare (with a yellow badge showing '1'), Kalender, and Abmelden. The main content area has a header "Möchtest du den folgenden Post wirklich löschen?" and the title "Test für die Zusatzinfos". Below the title is the date "29.July 2020". The central part of the screen displays a large image of Milford Sound, New Zealand, with mountains reflected in the water. Below the image is a caption "Milford Sound, Neuseeland". There are two TINY editor boxes: one for the banner text containing "I'm baby bespoke air plant mixtape subway tile semiotics etsy. Venmo health goth synth poutine retro blog before they sold out kogi bitters franzens.", and another for the main content containing "Next level schlitz narwhal, chillwave roof party sustainable marfa pickled vexillologist bespoke XOXO. Seitan yr locavore raw denim gluten-free tilde pubst readymade leggings air plant wayfarers. Af photo booth chicharrones stumptown, twee air plant aesthetic. Chambray tumeric slow-carb thundercats umami chartreuse tilde sartorial.". Both editors have "POWERED BY TINY" at the bottom. At the bottom of the main content area, it says "geschrieben von Matthias Frey". Below the main content area, there are sections for "Zusätzliche Postinformationen:" and "Kategorie:" (set to "Veranstaltungsbericht"). A button "Löschen" (Delete) is located at the bottom left of the main content area.

^ deletion mode

The editing mode only differs from new post mode in that it fetches and displays all the data that was already submitted to the database before.

The deletion mode only differs from editing mode in that all its input fields etc. are disabled, which means that the posts content is not editable in this mode and in that there is only one button below the form which submits the deletion request to the database.

All post related actions, through which the posts data is changed (deletion and upload, be it as draft or normal post) will be followed up by a redirection to the posts or drafts page and an appropriate success-message or error-message.

If no image was uploaded, a standard image will be uploaded as the posts banner (shown in the new post mode-picture).

WHAT HAS BEEN DONE:

1. The rich text editor tinyMCE has been implemented two times, both for the post-description and the post itself.
2. The whole form has been redesigned to mimic the reading view of a post.
3. An input field for the author and one for the post description have been added.
4. A preview of the standard image or the uploaded image is displayed
5. Delete post, edit post and new post page have been bundled into one page
6. If no image was uploaded, a standard image will act as the banner of the post.
7. A preview post button has been added.
8. A save as draft button has been added.
9. Post data of already existing posts is now correctly fetched.
10. All redirections are working now.

The preview page

The preview page is simply the reading view page with an added button in the top left corner to end the preview. Every view in it will counted as an admin-view (for the statistics)

The screenshot shows a website layout with a header containing navigation links (Startseite, Über Uns, Veranstaltungen, Newsletter, Kontakt) and a search bar. A red banner at the top states: "Die nächste GSV findet am 01. September um 09:30 Uhr statt!". The main content area features a large image of Milford Sound, New Zealand, with the title "Test für die Zusatzinfos" and the date "29.July 2020". Below the image, there is a caption: "Milford Sound, Neuseeland" and a paragraph of placeholder text. To the right, a sidebar titled "Letzte Berichte" displays four smaller images with titles: "Das Front-End ist geschafft!", "Test für die Zusatzinfos", "New design coming soon!", and "Die Reise". At the bottom, there is a comment form with fields for name, email, and comment, and a "Senden" button. The footer contains copyright information and a link to Impressum.

! The “manage categories”-page

The screenshot shows a website's administrative interface. At the top, there is a red header bar with the logo 'www.technikschule-niederrhein.de'. Below the header, a navigation menu on the left includes links like 'Dashboard', 'Alle Artikel', 'Entwürfe', 'Neuer Artikel', 'Post-Kategorien' (which is highlighted in red), 'Kontakt-Inbox', 'Admin-Verwaltung', 'GSV ankündigen', 'Kommentare' (with a yellow notification badge showing '1'), 'Kalender', and 'Abmelden'. The main content area has a title 'Kategorien verwalten'. Below the title is a table with three rows of data:

Nr.	Datum	Kategorienname	Erstellt von	Löschen
1	26.July 2020	Projektbericht	guest	Löschen
2	26.July 2020	Veranstaltungsbericht	guest	Löschen
3	26.July 2020	Ankündigung	guest	Löschen

Below the table, there is a form for adding a new category:

Neue Kategorie:

On the “manage categories” -page, the admin can get information about existing categories, delete them and add new ones to the given table.

The page consists of a basic input field where the user can type in the name of a new category with a button below it to submit it to the database and a table which lists all the existing categories ordered by their number above the form. The table contains information like the category-creator, the name of the category and when each category was created. In every row there also is a button to delete the row and its content. If a new category is added or an older category is deleted a success-message will pop up at the top of the page.

WHAT HAS BEEN DONE:

1. The page has been redesigned properly

!! The contact inbox page

The screenshot shows a website interface for managing contact messages. On the left is a sidebar with navigation links: Dashboard, Alle Artikel, Entwürfe, Neuer Artikel, Post-Kategorien, Kontakt-Inbox (which is highlighted in red), Admin-Verwaltung, GSV ankündigen, Kommentare (with 1 new comment), Kalender, and Abmelden. The main content area has a header "Empfangene Nachrichten". Below it is a table listing 9 messages:

Nr.	Datum	Absender	Nachricht	Komplette Nachricht lesen
1	28.Juli 2020	Matthias Frey	"This is a test message! Greetings to the..."	Komplette Nachricht lesen
2	27.Juli 2020	William Brandt	"Hallo meine Lieben Leute, ich habe ein..."	Komplette Nachricht lesen
3	27. Dezember 2020	Matthias Frey	"Coole Seite!"	Komplette Nachricht lesen
4	27. Dezember 2020	Matthias Frey	"Was für eine coole Seite!"	Komplette Nachricht lesen
5	27.Juli 2020	Matthias Frey	"Im baby banjo vape meggings, plaid forag..."	Komplette Nachricht lesen
6		Matthias Frey	"Dies ist eine Testnachricht"	Komplette Nachricht lesen
7		Tom Engelmann	"Ich liebe euch 2"	Komplette Nachricht lesen
8		Matthias Frey	"Ich liebe euch!!!"	Komplette Nachricht lesen
9	27.Juli 2020	Tom Engelmann	"Test message"	Komplette Nachricht lesen

Below the table is a red pop-up window showing a message from Matthias Frey: "Matthias Frey schrieb am 28.Juli 2020: 'This is a test message! Greetings to the CODE-admissions team!'". It includes a "Antworten" button and a text area for a reply: "Dear Matthias, thanks for your message! Greet them from us as well!". A "Senden" button is at the bottom right of the reply area.

The contact inbox page is another completely new page. It contains a table in which recently received contact messages are displayed, together with their sender's name, their submission date and a link to read the full message (if the message is too long to be displayed or if the admin wants to answer). If the read full message link was clicked, a pop up window below the table (shown in the picture) will be shown, displaying the writers name, the submission date and the message itself in a nicer way. If the admin wants to answer to the message he can click on the button on the right below the full message. Below the button a text area will show up in which the admin can type his answer. If he wants to submit it then, an automatic email will be sent to the author of the original message in which the answer as well as the original message will be echoed.

Inventory of the website after the challenge

28.07.2020

The screenshot shows an email inbox in Mailspring. At the top, there's a header bar with 'Aktivitäten' and 'Mailspring'. The date '28. Jul 22:44' and subject 'Mailspring · Antwort auf deine Nachricht vom 28. Juli 2020' are displayed. Below the header, the menu includes 'Datei', 'Bearbeiten', 'Darstellung', 'Thread', 'Entwickler', 'Fenster', and 'Hilfe'. The 'Inbox' tab is selected. A yellow envelope icon indicates a new message from 'gsvtestpage'. The message content shows:

An: Sie
Deine Nachricht:
This is a test message! Greetings to the CODE-admissions team!

Unsere Antwort:
Dear Matthias,
thanks for your message!
Greet them from us as well!

A text input field at the bottom says '(+) Eine Antwort schreiben...'.

^ answer to my contact message

The “manage admins”-page

The screenshot shows the 'Admin-Verwaltung' page. On the left sidebar, there are links: Dashboard, Alle Artikel, Entwürfe, Neuer Artikel, Post-Kategorien, Kontakt-Inbox, Admin-Verwaltung (which is highlighted in red), GSV ankündigen, Kommentare (with a yellow notification badge), Kalender, and Abmelden. The main content area is titled 'Admins verwalten'. It shows a table with two rows of data:

Nr.	Erstellt am	Benutzername	Hinzugefügt von	Löschen
1	22. July 2020	Admin	guest	Löschen
2	19. Juli 2020	guest	guest	Löschen

Below the table, there is a form for adding a new admin:

Neuen Admin hinzufügen:

Benutzername:

Passwort:

Password bestätigen:

Konto erstellen

On the “manage admins”-page, the active admin shall be able to add a new admin and manage already existing admin-accounts.

The page consists of a table and a basic form with three input fields and a submit button below the table. The form is used to add a new admin. Its input fields require the active admin to enter a name and a password for the new admin as well to retype the password to make sure it is typed right. If the form is correctly submitted, the newly added admin will appear in the table below and a success message will pop up above the form. If there are any errors with the given input, the form will not be submitted properly and an error message will appear above the form.

In the table above the form all existing admins are listed together with information about when they were added as admins as well as their names and who they were added by. There also is one button per row with which the active admin can delete the respective row and with it the connected admin-account.

WHAT HAS BEEN DONE

1. The page has been redesigned properly.

!! The new GSV page

The screenshot shows a website interface with a red header bar containing the logo 'Gesellschaft für Soziologische Methoden und Techniken' and navigation links: Startseite, Über Uns, Veranstaltungen, Newsletter, Kontakt, and a user icon. Below the header is a sidebar with links: Dashboard, Alle Artikel, Alle Entwürfe, Neuer Artikel, Post-Kategorien, Kontakt-Inbox, Admin-Verwaltung, GSV ankündigen (highlighted in red), Kommentare (with a yellow notification box showing '1'), Kalender, and Abmelden. The main content area is titled 'Neuen GSV-Termin ankündigen' and contains instructions: 'Auf dieser Seite kannst du über einen Timer auf den Hauptseiten den nächsten GSV-Termin ankündigen! (Bitte nur numerische Eingaben!)'. It features a form with input fields for 'Tag', 'Monat', '2020', 'Uhr-', 'zeit', and a button 'Termin ankündigen'.

The new GSV page is another completely new page.

It contains a page explanation as well as a simple form, in which the admin can enter the date and time of the next GSV. By submitting the form, the entered data will be uploaded and the notification in the orange stripe below the top navigation will be updated accordingly.

WHAT HAS BEEN DONE

1. A new page has been created as well as a function that fetches the entered data and uploads it to the database in the right format. It is also checked if the date has already passed and if so, the notification will disappear.

The “manage comments”-page

The screenshot shows a dashboard with a sidebar on the left containing links like 'Dashboard', 'Alle Artikel', 'Entwürfe', 'Neuer Artikel', 'Post-Kategorien', 'Kontakt-Inbox', 'Admin-Verwaltung', 'GSV ankündigen', 'Kommentare' (with a yellow badge), 'Kalender', and 'Abmelden'. The main area has two tables. The first table, 'Gesperzte Kommentare', has one entry: Nr. 1, Name: zlatan ibrahimovic, Datum: 27. Juli 2020, Kommentar: 12469, with buttons 'Freigeben', 'Löschen', and 'Vorschau'. The second table, 'Freigegebene Kommentare', has seven entries, each with columns for Nr., Name, Datum, Kommentar, Freigegeben von, Sperren, Löschen, and Vorschau. The entries are:

Nr.	Name	Datum	Kommentar	Freigegeben von	Sperren	Löschen	Vorschau
1	Matthias Frey	27. July 2020	Gelles Bild!		Sperren	Löschen	Vorschau
2	Tom Engelmann	26. July 2020	Was für eine cooler Post! Ist das Hipsum.co-Text?		Sperren	Löschen	Vorschau
3	Matthias Frey	26. July 2020	Test Kommentar		Sperren	Löschen	Vorschau
4	Tom Engelmann	24. July 2020	jawohl, so nämlich		Sperren	Löschen	Vorschau
5	Tom Engelmann	22. July 2020	testtest	guest	Sperren	Löschen	Vorschau
6	Sophie Schäfer	17. November 2019	who's website is this?	guest	Sperren	Löschen	Vorschau
7	Matthias Frey	13. Juli 2019	nice article	johannselbst	Sperren	Löschen	Vorschau

On the “manage comments”-page the admin shall be able to approve or disapprove comments that have been submitted to the website via the comment-form beneath the articles.

Every comment is directly shown after its submission and can then be disapproved or deleted.

The page consist of two tables in which all unapproved and approved comments are listed. In the tables data about the comments like their authors name, their submission date and the comment itself are shown. Both tables also include a button to view the article beneath which the comment has been posted and a button to delete the respective comment and all data about it from the database. In the “unapproved comments”-table there also is a button to

approve the given comment and vice versa in the “approved comments”-table there is a button to disapprove the given comment.

Lastly, in the “approved comments”-table the admin can also see, which comment was approved by which admin.

If a comment has successfully been approved, disapproved or deleted a short success message will pop up at the top of the page.

WHAT HAS BEEN DONE

1. The page has been redesigned properly.
2. The old header has been removed
3. All links and redirections have been updated properly.
